

# POWER PAK #85

TECHNICAL DATA

**POWER PAK #85** is a portable, lightweight electrical applicator developed for the safe and easy application of deoxidizing and passivating chemicals to stainless steel. Provides accurate temperature control for efficient scale removal and passivation of 300 series stainless.

Price  
\$ 715.75

Large pieces, which cannot be conveniently immersed in a heated bath, may be cleaned with the electric hand applicator shown above. Attach the clip to the piece, turn on the switch and dip the applicator into one of the OX-OUT chemicals below. One or two strokes removes all welding oxide and scale instantly on contact. No pressure needed. A few strokes with Ox-Out 540-L produces a passive surface.

### Use the Power Pak #85 on STAINLESS STEEL with:

#### **OX-OUT #536 —**

Heavy duty scale and oxide remover. Fast and complete removal on mill pickled and grit finished 300 series stainless and nickel alloys. Produces a flat, white, clean weld area.

\$ 23.25 / Gallon

#### **OX-OUT 155 —**

Non-etch oxide and temper color remover. Quick clean-up on polished 300 series stainless steels with no additional whitening or etching. Great for spot weld marks.

#### **OX-OUT 540-L —**

Passivating solution for 300 and 400 series stainless. Excellent remover for brown rust spots. Will not etch or dull shine. Provides a clear film that protects the surface against attack.

**CAUTION: Strong Acid Mixture...** Personnel handling and using OX-OUT #536, OX-OUT #155 or OX-OUT #540-L should wear proper acid proof clothing and gloves. Eye protection is required. Avoid contact with skin, eyes or clothing. See Material Safety Data Sheet for detailed directions.
